

From clinical observation to new mechanistic insights Invitation to networking event

The LEO Foundation Skin Immunology Research Center is pleased to invite scientists in translational dermatology to a networking evening at the 35th Nordic Congress of Dermatology and Venereology in Copenhagen. Register now to reserve your seat.

The networking event *'From clinical observation to new mechanistic insights'* aims to bring together established and early-career scientists in translational dermatology for an inspirational lecture, debate and networking evening with food and drinks.

During the programme, participants will engage in discussions on topics that are vital in promoting high-quality scientific

output and productive interdisciplinary collaborations. The topics include:

- How to pave the roads from clinical observations to impactful hard science
- How to build successful and sustainable career paths for researching dermatologists
- How to form dynamic bonds between dermatologists and preclinical research groups

Programme

17:45-18:00	Arrival and welcome drink
18:00-18:10	Welcome by the Organising Committee
18:10-18:50	Inspirational guest lecture: 'Curiosity, communication and collaboration within and beyond medical research' by Director Ken Arnold, Medical Museion, University of Copenhagen
18:50-19:40	Networking, food and drinks
19:40-20:15	Table discussions on key topics
20:15-20:30	Summary of discussions by selected early-career scientists
20:30-22:00	Networking, food and drinks continued

About the event

Data and time:

Tuesday 19 April 2022, 18:00-22:00

Venue:

Mærsk Tower
Blegdamsvej 3B
2200 Copenhagen
Denmark

Registration:

Participants can sign up for the event when registering for the NCDV 2022. Participation is free of charge. Seating is limited and will be distributed on a first come, first served basis. Read more and sign up for the 35th Nordic Congress of Dermatology and Venereology here: <https://ncdv2022.org/>
